Summary

Highly motivated and adaptable professional seeking a challenging role within a dynamic, growth-oriented organization. Eager to contribute to organizational success by leveraging strong skills, innovative mindset, and commitment to achieving diverse goals and objectives in a contemporary business environment.

Virtual Internships & Certifications

Virtual Intern - [Salesforce]   Oct 2023 - Nov 2023

Salesforce Virtual Intern proficient in organizational setup, relationship management, process automation, and various flow types. Skilled in Apex development, unit testing, debugging, and security measures within Salesforce environments. Experienced with Lightning Web Components (LWC) and API integrations.

Projects

Static Website   Link to Demo

Developed a visually engaging, static website, Tourism Explorer, using HTML, CSS, and Bootstrap to inspire and guide travelers planning trips to iconic Indian destinations. The site prioritizes user-friendliness with a responsive design, ensuring optimal viewing across all devices.

Responsive Website   Link to Demo

Developed a responsive website template for a food delivery service using HTML, Bootstrap 4, CSS, and JavaScript. The design is modern and user-friendly, featuring a clear navbar, vibrant banner, and visually appealing sections like "Why Choose Us?" and "Explore Menu." Implemented Bootstrap's grid system for responsiveness and custom styling for a cohesive brand identity.

Billing Software System   Link to Demo

Developed a robust Python-based Billing Software System for efficient retail management. Utilized tkinter for a user-friendly interface, enabling customers to input details and select items from various categories. Implemented accurate price calculations, including taxes for snacks, groceries, and hygiene products. Enabled generation and printing of detailed bills, enhancing operational efficiency in supermarket environments.
